Application – Adult Life Care Program

Program Policies & General Information (Please keep pages 1 - 6 for your records.)

The North Dakota Teen Challenge (NDTC) Life Care Program is a Christian residential recovery program. It consists of at least 12 months of instruction using a spiritual education model. The program assists individuals in permanently recovering from drug and alcohol abuse and the life-controlling problems associated with it.

NDTC does not discriminate on the basis of race, color, creed, religion, sex, national and ethnic origin, marital status, public assistance, sexual orientation, family status, or disability in the administration of its educational, admission, or program policies procedures.

Applicants must be committed to complete the entire program to be eligible for admission. Program participants (students) are required to participate in daily devotions, chapel, individual discipleship, choir and classes. Daily assignments are a program requirement. Students who do not keep up with their daily assignments and those who fail to demonstrate satisfactory growth may be required to stay beyond the 12 month period.

Each student will have access to our “Student Manual” which covers the policies of the program. NDTC reserves the right to make changes in policy whenever necessary. When a change in policy occurs, students and staff will be notified and the “Student Manual” will be updated to reflect the change. Highlighted below are some basic requirements/guidelines all NDTC students are expected to adhere to while in the program. - In addition to this schedule, students are expected to participate in group choir rehearsals and weekly evening church groups at different churches in the local community.
- Saturday's are less structured and include time in the afternoon for visits from approved family and friends as well as passes for upper level students.

Program Outline

The NDTC program consists of four levels. Each level focuses on the recovery and spiritual and emotional wellness of the student. The paragraphs that follow give a general outline and approximate timeline of each level:

Level One (approximately 14 weeks)

In level one, students attend classes that promote life recovery in the areas of: chemical dependency, anger management, personal relationships, family dynamics, depression, self-acceptance, and maintaining a chemical-free lifestyle.

Level Two (approximately 12 weeks)

In level two, students attend a series of classes designed to assist in the development of personal character and in the facilitation of healthy relationships with others. Students also work independently on materials focusing on their specific personal and family issues. They continue receiving these materials throughout the remainder of the program as they address each major issue in their lives.

Level Three (approximately 12 weeks)

In level three, students learn how to deal with the pain and emotional suffering associated with their current and past issues. Students attend classes designed to provide healing for damaged emotions and confront the issues that have left them emotionally scarred. *Family therapy may be offered to students when they enter this level and may continue through level four if desired.

Level Four (approximately 12 weeks)

Throughout level four, students focus on transitioning back into their local community. They receive classroom instruction on marriage and home, financial management, how to be good citizens and solving life's problems. Level four students also receive assistance with obtaining affordable housing, finding adequate employment, and connecting with a mentor in the local community.
