Attach FSA Map of each pit. Highlight clearly the area to be inspected. Be sure the pile or pit number is legible.

**\*Note: All ND state listed noxious weeds present in the pit must be controlled prior to inspection and before the weeds have reached the bud or boot stage. Control methods include herbicides, mowing, tillage, or burning.**

I hereby request the property highlighted on the attached map and listed above to be inspected for certification for weed seed free gravel, scoria, topsoil or sand according to Burleigh County Weed Board standards, and agree to the following terms.

1. An inspector may enter the property as necessary for inspection and certification of gravel, scoria, topsoil or sand located on the property.
2. I will pay the following fees to BCWB: \$10 for each acre inspected, \$30 per hour for the inspection and travel time, and mileage at the posted state rate.
3. Materials will not be certified if it does not meet BCWB standards.
4. I will abide by the appropriate standards during all stages of production.
5. BCWB may conduct an investigation of any materials in my possession to verify that I am abiding by the appropriate standards during all stages of production, as required by this agreement. In conducting this investigation and inspector may enter anywhere certified materials are located.
6. The certification may be revoked if I fail to abide by the terms of this agreement.
7. I understand that certification is not a warranty of any kind as to the quality of the product from an inspected and certified location, and that the only representation is that gravel, scoria, topsoil or sand for sale or resale has been inspected for contamination by weeds under the BCWB standards.
8. The inspector and BCWB are not responsible to any third parties for any damage caused by an applicant's use of inspection reports or certifications. I agree to hold harmless and indemnify the inspector and BCWB, from any claims based on such damage or loss
9. I understand that if the Surface mining operation is compliant with N.D.C.C. 4.1-47 on the date inspected. This certification provides no guarantee of freedom of weed seeds.
