

BURLEIGH COUNTY, NORTH DAKOTA CULVERT INVENTORY MAP

* Please note that culvert conditions can change over time and the Culvert Condition shown on this map only represents the condition of the culvert the last time it was inspected. Because of the substantial number of culverts in Burleigh County it may take several years before a culvert is inspected again. In addition, the original inventorying of culverts is still ongoing. This means there are many culverts not shown on this map.

Culvert Condition*

- good
- fair
- poor
- very poor
